

## CIVIL AND LEGAL RIGHTS (Whistleblower Policy)

### Personnel

Bay Area Technology School (“BATS” or “School”) requires its directors, officers, employees, and volunteers to observe high standards of ethics in the conduct of their duties and responsibilities within the School. As representatives of the School, such individuals must practice honesty and integrity in fulfilling all responsibilities and must comply with all applicable laws and regulations. The purpose of this policy is to create an ethical and open work environment, to ensure that the School has a governance and accountability structure that supports its mission, and to encourage and enable directors, officers, employees, and volunteers of the School to raise serious concerns about the occurrence of illegal or unethical actions within the School before turning to outside parties for resolution.

All directors, officers, employees, and volunteers of the School have a responsibility to report any action or suspected action taken within the School that is illegal, unethical or violates any adopted policy of the School, or local rule or regulation. Anyone reporting a violation must act in good faith, without malice to the School or any individual at the School and have reasonable grounds for believing that the information shared in the report indicates that a violation has occurred. A person who makes a report does not have to prove that a violation has occurred. However, any report which the reporter has made maliciously or any report, which the reporter has good reason to believe is false will be viewed as a serious disciplinary offense. No one who in good faith reports a violation, or who, in good faith, cooperates in the investigation of a violation shall suffer harassment, retaliation, or adverse employment action. Further, no one who in good faith discloses, who may disclose, or who the School believes disclosed or may disclose, information regarding alleged violations to a person with authority over the employee or another employee who had responsibility for investigating, discovering or correcting the purported violation shall suffer harassment, retaliation, or adverse employment action.

No employee shall use or attempt to use his/her official authority or influence to intimidate, threaten, coerce, or command another employee for the purpose of interfering with that employee's right to disclose improper governmental activity. (Education Code 44113)

An employee shall have the right to disclose to a Board member, a school administrator, a member of the County Board of Education, County Superintendent of Schools, or the Superintendent of Public Instruction any improper governmental activity by the school or a school employee that violates state or federal law, is economically wasteful, or involves gross misconduct, incompetency, or inefficiency. When the employee has reasonable cause to believe that the information discloses a violation of state or federal statute or a violation of or noncompliance with a state or federal rule or regulation, he/she has the right to disclose such information to a government or law enforcement agency or to refuse to participate in any such activity.

An employee who has disclosed improper governmental activity and believes that he/she has subsequently been subjected to acts or attempted acts of reprisal shall file a written complaint in accordance with the school's complaint procedures. After filing a complaint with the school, the employee may also file a copy of the complaint with local law enforcement and/or seek civil law remedies against the supervisor or administrator who retaliated or attempted to retaliate against him/her, in accordance with Education Code 44114.
